What Musicians Are Saying
about MusicPRO® Electronic Earplugs

Example

"MusicPRO earplugs allow me to stay connected with the instructions of the conductor, and actually make it easier to hear my colleagues across the stage."
Sue Heineman
Principal Bassoon
National Symphony Orchestra

"With Etymotic's electronic earplugs I was able to hear intonation in soft passages, while I never felt the pain of loud brass entrances right behind me."
Michael Sundell
Corona Bassoonist
Minnesota Symphony

"These electronic earplugs allow me to hear everything, including the Maestro's instructions, while damping the onslaught of the brass band."
John Yeh
Clarinetist
Chicago Symphony Orchestra

We believe everyone deserves to **Hear for a Lifetime.***

I use Google Analytics to determine what was the last website visited by visitors to our website.

HearingHealthMatters.org is always one of the top three websites directing traffic to Frye.com. Of the top 20 websites about half bounce off, staying for only a few seconds and not viewing more than the one landing page. Of the websites that do direct traffic toward Frye.com I value *quality* over quantity. For me, quality is a combination of time on Frye's website and the number of pages viewed. The #1 website averages six pages with approximately (01:40) one minute forty seconds on Frye's website. That website, which we pay more to than Hearing Health Matters, provides a fraction of the leads. Hearing Health & Technology Matters (HHTM), as noted above, provides the most visitors to Frye.com.

Visitors from HHTM's website average 3.3 pages and approximately (01:30) one minute thirty seconds. None of the other websites provide both multiple page view and total time on our web site. Only HHTM provides all three: The **most visitors** directed to Frye.com. **Multiple (3.3) page views** and **Significant time (1:30)** on the Frye website. HHTM gives Frye.com the most bang for our buck. The money Frye pays to advertise with your group is well spent.
