

The most advanced OTC hearing solution for your practice

Meet Tuned. The new FDA-510(k)-Cleared app-powered complete hearing aid solution that engages, motivates, and educates users, maximizing the benefits of their hearing journey.

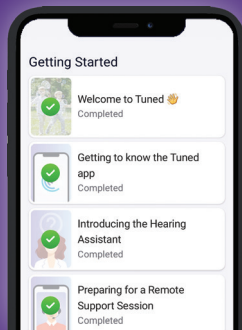

Available for iOS and Android

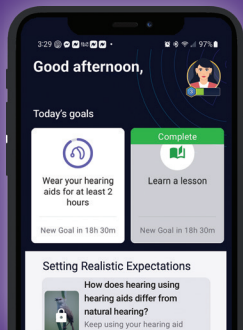

The Tuned platform empowers the user through a self-service experience, making it the perfect option for patients who are not ready for an in-office hearing solution. Users are completely supported by Tuned technology through a leading-edge chat interface and a professional remote support team, both with remote programming capabilities.

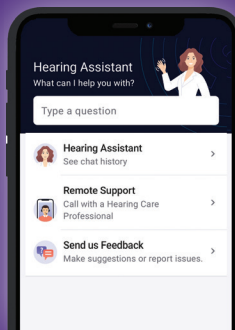

Easy onboarding and operating instructions

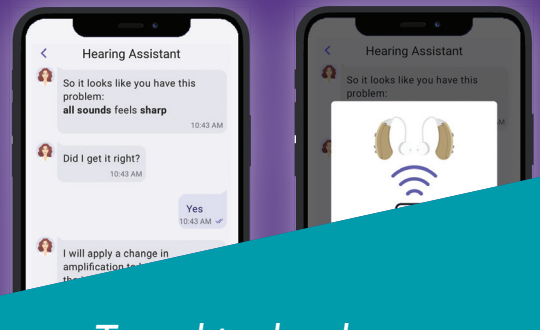

Daily goals and essential lessons

Advanced chat interface plus remote support

Remote programming capabilities through AI hearing assistant and remote support team

Discover the complete Tuned hearing solution and the value it will bring to your practice.
